APPLIED BIOCHEMISTRY AND MICROBIOLOGY

Volume 6, Numbers 1-6, 1970

(A translation of Prikladnaya Biokhimiya i Mikrobiologiya)

Volume 6, Number 1

January-February, 1970

Eng./Russ.

Biochemical Processes during Ripening of Fleshy Fruits—E. G. Sal'kova and L. V. Metlitskii	1	3
Carbonyl Compounds and Their Role in the Aroma of Fruits and Berries —A. F. Pisarnitskii, P. V. Vereshchagin, G. I. Macharoshvili, and E. G. Bogatova	9	13
Proteins of Grape Juice and Wine—T. P. Chazova and V. I. Nilov	14	18
On the Role of Free Amino Acids in the Aroma Formation during Thermal Treatment of Tea—N. I. Skobeleva and M. A. Bokuchava	18	23
Changes in Amino Acid Composition of Rye Protein during Ripening —L. G. Priezzheva, V. F. Golenkov, and V. M. Gil'zin	20	26
Effect of Lipids on the Content of Sulfhydryl Groups and Disulfide Bonds in Gluten —V. G. Baikov, A. P. Nechaev, L. I. Puchkova, and G. N. Terent'eva	24	32
Effect of Hydrothermal Treatment of Buckwheat Grains on Its Biological Value —T. V. Lokteva, V. Ya. Shablii, Z. S. Kagan, and E. M. Mel'nikov	29	37
The Possibility of Predicting the Content of Certain Amino Acids in Bacterial Protein According to Data on the DNA Nucleotide Composition —P. M. Samoilov, N. A. Kokurina, V. N. Uarova, L. I. Vorob'eva and V. M. Grishchenko	35	44
Examination of Enzymes of the Amylolytic Complex of <i>Endomycopsis</i> sp. 20-9 —É. V. Kol'tsova and A. I. Sadova	38	48
Effect of Melanoidin Formation on Acid Resistance of Malt β -Amylase —N. A. Zherebtsov, S. E. Kharin, and É. A. Krayushkina	41	51
The Amylolytic Complex and Acid Inactivation of Mold α -Amylases —R. V. Feniksova and G. K. Ermoshina	47	58
Comparative Study of the Action of Proteases on Procollagen —G. A. Nesterova and E. D. Kaverzneva	51	62
Comparative Characteristics and Stability of Strains of <i>Aspergillus niger</i> Active in Relation to the Formation of Citric Acid—E. Ya. Shcherbakova	58	69
Effects of S-Methylmethionine (Vitamin U) on Vitamin B ₁₂ Synthesis by <i>Propionibacterium shermanii</i> —V. Ya. Bykhovskii, N. I. Zaitseva, and G. N. Khuchua	63	75
Effect of Preparations of Microbacteria and Diaminopimelic Acid on the Growth of <i>Candida tropicalis</i> —N. A. Surgucheva, V. K. Kroshin, and P. M. Samoilov ...	67	79
Production of Calcium Gluconate by the Microbiological Method —D. Ya. Soshnikov, A. G. Petunina, and E. A. Malysheva	72	83
Direct Detection of Glucmannan in <i>Eremurus</i> Roots by Infrared Spectroscopy —V. D. Shcherbukhin	75	86
Investigation of the Separation of Monoribonucleotides on Anion-Exchanger AV-17 —V. K. Ulaste, I. Ya. Lazdin'sh, R. Ya. Bandere, I. V. Smorodina, and A. A. Avots	79	90
Study of the Composition of Pigments and Tocopherols of Rye Lipids —Yu. F. Klyushkina, Ya. I. Denisenko, A. P. Nechaev, and M. Ts. Yanotovskii ...	84	95

Agglutination of Fodder Yeasts—N. Ya. Fedorova, N. G. Sitnik, and A. F. Zelinskaya . . .	88	99
Comparative Study of Free Amino Acid Formation by Thermophilic Lactic Acid Bacteria—D. K. Ogai, Sh. M. Musaev, and Yu. Madrakhimov	92	103
Free Amino Acids of the Hemolymph of Silkworms (<i>Bombyx mori</i> L.) Being Fed Mulberry Leaves of Different Ages—G. V. Samokhvalova and V. G. Zakhvatkina . .	96	106

Volume 6, Number 2 March-April, 1970

The Effect of Sulfhydryl Groups and Disulfide Bonds on the Quality of Flour from Different Varieties of Wheat—S. A. Zacharova and E. D. Kazakov	101	127
Investigation of the Fractional Composition of Rye Mucilages by Means of DEAE-Sephadex—L. S. L'vova, V. F. Golenkov, and L. G. Priezzheva	107	133
Effect of Harvest Time and Storage Temperature of Potatoes on Nucleic Acid Content in Tuber Tissues—S. A. Gusev and V. G. Popov	112	138
Content of 3, 4-Benzopyrene in Sunflower and Cotton Seed Oils—L. T. Grigorenko, P. P. Dikun, I. A. Kalinina, A. N. Mironova, and V. P. Rzhikhin	116	142
Effect of Valine Metabolites on Lysine Synthesis by Mutant Strains of <i>Micrococcus glutamicus</i> —Z. M. Zaitseva	125	151
Thiamine Requirements of <i>Brevibacterium</i> 22—L. S. Kutseva and N. M. Klyueva	131	158
Respiration and Dehydrogenase Activity of <i>Candida tropicalis</i> in the Presence of Furfural—L. A. Gusarova and A. M. Vitrinskaya	133	161
Isolation of an Acid-Stable α -Amylase Preparation from <i>Aspergillus niger</i> 475 —R. V. Feniksova and G. K. Ermoshina	138	168
<i>Bacillus mesentericus</i> 11-11, a Producer of Milk-Clotting and Proteolytic Enzymes —D. Dimitrov, I. Ya. Veselov, T. A. Petina, and D. Ya. Tipograf	143	173
Effect of Drying Temperature on Tryptophan Content of <i>Candida utilis</i> 295t Culture Liquid—B. É. Damberg and M. V. Popova	147	178
Hydrolysis of Protein Fractions from Yeast; Muscle Tissue, and Clover by Pepsin, Trypsin, and Chymotrypsin—V. V. Tkachenko	152	183
Effect of Papain on the Organoleptic and Physicochemical Properties of Buffalo Meat —V. I. Solov'ev and L. G. Gashimova	157	190
Proteolysis of the Proteins of Cow's Milk and Hen's Eggs after Ultrasonic Treatment —S. Kh. Nikolov, B. S. Mikhalenko, and L. N. Selikhova	161	196
Hydrolysis of Potato Starch by α -Amylase At 0° C and -13° C—A. I. Veselov, I. P. Uvarov, and É. I. Uznadze	165	201
Utilization of Carbohydrate Fractions of Awamorin-Supplement Silage by Cows —E. G. Konoplev and V. R. Zel'ner	168	205
Aromatic Substances of Wine—A. K. Rodopulo, A. A. Bezzubov, and I. A. Egorov	176	214
Certain Problems of Industrial Biochemistry at the Second All-Union Biochemistry Congress—M. A. Bokuchava	182	220
Methods of Determining the Activity of Proteolytic Enzymes—B. P. Surinov	187	226
Use of Distribution Chromatography to Determine Amino Acid Acylases—P. N. Evtikhov, G. A. Molodova, and N. I. Solodovnikova	193	234
Colorimetric Micromethod for Determining Residues of CCC (Chlorocholine Choline) in Wheat Grain—K. Blyaim	198	239
Microbiological Quantitative Determination of Inositol in Yeast—N. I. Korotchenko, V. A. Bendosenko, and N. K. Koneva	201	243

Influence of D ₂ O on the Properties of Corn and Potato Starch—V. L. Kretovich, N. N. Zotova, and N. N. Busareva	205	251
Action of α -Amylase on Nongelatinized Potato Starch—L. A. Dukhanina, T. I. Sukhorukova, and A. B. Luk'yanov	208	254
Effect of Nutrient Composition on the Synthesis and Properties of <i>Aspergillus</i> <i>awamori</i> 78-2 Acid Protease—T. V. Shakhova and S. A. Konovalov	211	257
Proteolytic Activity of <i>Aspergillus</i> Acid Proteases—E. N. Datunashvili, N. M. Pavlenko, D. B. Lifshits, and E. S. Patsenker	217	264
Solubilization of Collagen by Protease Preparations from <i>Actinomyces fradiae</i> 119 —I. S. Petrova	221	268
Hydrolysis of <i>Saccharomyces cerevisiae</i> and <i>Candida lipolytica</i> by Various Enzyme Preparations—A. V. Ananichev, M. O. Rozhanskii, and V. M. Belikov	225	272
Effect of Awamori-Supplemented Silage on the Enzyme Properties of the Contents of the Gastrointestinal Tracts of Cows—M. T. Taranov, V. L. Vladimirov, G. R. Nariniyants, E. G. Konoplev, and V. R. Zel'ner	230	278
The Preparation of a Purified Preparation of the Extracellular Deoxyribonuclease of <i>Fusarium culmorum</i> 732—N. I. Pork and A. M. Bezborodov	233	281
Gel-Sorbents for Enzyme Purification—V. A. Il'in, M. S. Shul'man, A. B. Pashkov, and I. V. Samborskii	239	289
Certain Characteristics of the Metabolic Products of the Hydrocarbon-Oxidizing Yeast <i>Candida guilliermondii</i> —V. P. Tret'yakova, N. B. Gradova, and E. L. Ruban Peculiarities of the Oleic Acid Effect on Yeasts—N. V. Rozmanova, N. K. Palagina, V. G. Chernysh, and I. A. Stafeeva	246	297
Effect of Trace Elements on the Accumulation of Biomass by Bakers' Yeast —A. I. Khrycheva	252	303
Comparative Characteristics of Oligoconidial Mutants of <i>Aspergillus Flavus</i> Forming Active Proteolytic Enzymes—N. V. Popova, I. D. Kasatkina, and R. M. Aprelikova	255	307
Production of Better Riboflavin-Producing Strains from <i>Brevibacterium</i> 22 —T. A. Bobrovskaya and S. N. Bocharov	259	313
Composition of Champagne Constituents Responsible for Flavor—S. P. Avakyants	263	318
Catechols of Grapes and Red Table Wine—M. A. Bokuchava, G. G. Valuiko, and A. M. Filippov	267	323
Change in Nitrogen Compounds of Tirage Wine as a Result of Treatment with Polyacrylamide—E. S. Drboglav, N. N. Glonina, and V. S. Gulyaeva	276	333
Microbiological Method of Determining Pantothenic Acid in Animal Tissues —L. Ya. Utro	280	338
Use of Kapron in Extracting Polyphenol Oxidase from Tea Leaves—G. A. Buzun, K. M. Dzhemukhadze, and L. F. Milesenko	283	342
286	345	
BRIEF COMMUNICATIONS		
Apparatus for Submerged Cultivation of Aerobic Microorganisms—M. N. Losev	288	348
Effect of High- and Low-Pressure Polyethylenes on <i>Aspergillus Oryzae</i> 3-9-15 —T. V. Trifonova, V. N. Kestel'man, G. L. Vil'nina, and L. A. Goryainova	291	351
Nicotine Conversion in Tobacco Plants—G. S. Il'in and M. Ya. Lovkova	294	354
BOOK REVIEWS		
V. E. Anisimov. Biochemistry and Clinical Use of Lipoic Acid (Vitamin N) —Reviewed by O. S. Radbil'	296	357

A Mathematical Model of the Multiplication of Microorganisms in Batch Cultivation - V. A. Ambrosov, N. N. Vasil'ev, and A. A. Skladnev	299	363
Use of Mathematical Planning to Optimize a Medium for Production of Vitamin B ₁₂ by Propionibacteria - G. A. Golozubova, L. I. Vorob'eva, and V. N. Maksimov	308	375
Hydrolysis of Certain Proteins by Acid Protease - T. V. Shakhova, S. A. Konovalov, and A. K. Ovcharov.	315	383
Conditions and Dynamics of the Formation of α -Ketoglutaric Acid during the Growth of the Thiamine-Heterotrophic Yeast <i>Candida lipolytica</i> on n-Hexadecane - I. T. Ermakova.	319	388
Chemical Composition of <i>Candida</i> Yeasts Grown in Media Containing Dibasic Organic Acids - Z. V. Levina and M. S. Dudkin.	326	396
Isolation and Purification of Pectinesterase from Vegetable Industry Wastes - G. S. Barnashova and E. V. Sapozhnikova	330	401
Effect of Transglycosylase on the Yield of Glucose during Starch Hydrolysis by Glucosylase of <i>Aspergillus awamori</i> - V. G. Ryzhakova	335	407
Role of Vitamin B ₁₂ in Methionine Catabolism - L. Ya. Areshkina, E. P. Skorobogatova, N. N. Erofeeva, É. G. Filipovich, and B. A. Annenkov	339	411
Action of Certain Proteases on Noncollagen Components of Animal Skin - G. A. Nesterova, E. D. Kaverzneva, and A. N. Mikhailov	347	420
Effect of Storage Atmosphere on the Cuticular Substances of Apples - N. P. Morozova, E. A. Bulantseva, and E. G. Sal'kova	352	426
A Study of Phytoalexins of Potatoes - N. I. Vasyukova, O. L. Ozeretskivskaya, and L. V. Metlitskii	356	431
The Chemical Nature of the Aroma Constituents of Wine and Champagne - S. P. Avakyants	361	437
Peach Polyphenols and Their Role in Color Changes in the Fruit - A. L. Fel'dman and L. I. Kostinskaya	366	442
An Enzymatic Method of Determining Picomolar Amounts of Coenzyme B ₁₂ by Means of the Apoenzyme of Glycerol Dehydratase - I. F. Chernyad'eva, S. S. Melik-Sarkisyan, E. P. Skorobogatova, L. Ya. Areshkina, and V. L. Kretovich.	370	447
Preparation of the Apoenzyme of Tryptophanase of <i>Escherichia coli</i> Uncontaminated with the Holoenzyme - Yu. V. Bukin and A. V. Sergeev.	379	456
Estimation of Total Soluble Organic Acids in Culture Liquids during Submerged Culture of Certain Microorganisms - O. A. Maksimenko, L. A. Zyukova, and R. M. Fedorovich	385	462
Determination of Glucose in Molasses by the Glucose Oxidase Method Using Potassium Ferrocyanoide - V. D. Shcherbukhin, L. I. Mironova, A. V. Kondyreva, and V. S. Gryuner	389	467
Method of Determining Wheat Lipoxygenase - G. G. Dubtsov and M. P. Popov	393	471
Assay of Purity of Tea Polyphenol Oxidase - G. A. Buzun, K. M. Dzhemukhadze, and L. F. Milesenko	397	475
Effect of Decane on Carotenogenesis by <i>Blakeslea trispora</i> - M. B. Yakovleva and V. A. Mironov	400	477
Effect of Temperature and Duration of Irradiation on Enrichment of Fodder Yeasts with Vitamin D ₂ - Z. N. Robysheva and É. M. Dikanskaya	403	479
Alkaloid Spectra during Germination of <i>Nicotiana glauca</i> Seeds - M. Ya. Lovkova, G. S. Il'in, and N. S. Minozhedina	405	481

Volume 6, Number 5 September-October, 1970

Transformation of Terpenes by Microorganisms—N. E. Voishvillo, A. A. Akhrem, and Yu. A. Titov	409	491
Carbon Dioxide Fixation by <i>Candida</i> Cultured in Octadecane and Glucose Media —I. P. Uvarov, E. R. Davidov, A. D. Gololobov, and V. V. Rachinskii.	419	502
The Effect of Furfural on the Biosynthesis of Protein and Nucleic Acids by the Yeast <i>Candida tropicalis</i> —L. A. Gusarova	425	509
Effect of Phosphates on Phosphatase Synthesis by <i>Aspergillus awamori</i> 22	431	516
Use of <i>Acetobacter aceti</i> to Isolate an Optically Active Isomer of 2,3-Butanediol from a Mixture of the Racemate and Meso Form—M. S. Loitsyanskaya, I. L. Artamonova, and A. A. Tkachenko	434	519
Decomposition of Cellulose Substrates by Cellulase Preparations—N. A. Tiunova, N. A. Rodionova, R. V. Feniksova, and L. I. Martinovich	437	523
Isolation of Nucleic Acids from Meristematic Plant Tissues—N. P. Korableva, K. S. Baishev, K. A. Karavaeva, and L. V. Metlitskii	444	532
Method of Isolating tRNA from Baker's Yeast—V. M. Chuchaev, A. G. Khmel'nitskii, and L. A. Kiselev	449	538
Biochemical Changes in Goose Meat during Maturation—V. I. Solov'ev, N. F. Pankov, and E. G. Savran	454	543
The Effect of Growth Conditions on the Development of the Microflora of a Kefir Starter—L. V. Krasnikova, N. V. Novotel'nov, and L. I. Shmeleva.	461	551
A Study of Possible Sources of Carcinogenic Polycyclic Hydrocarbons in Vegetable Oils—L. T. Grigorenko, P. P. Dikun, I. A. Kalinina, A. N. Mironova, and V. P. Rzhekhin	466	557
Regulation of the Enzymatic Oxidation of Vitamin A by Menadion —A. A. Dmitrovskii and S. Kh. Tapaltsyan	470	562
The Resistance of the Potato towards <i>Phytophthora infestans</i> in Relation to the Phytoalexin Activity of the Leaves—L. V. Metlitskii, O. L. Ozeretskoyanskaya, N. I. Vasyukova, M. A. Davydova, N. A. Dorozhkin, Z. I. Remneva, and V. G. Ivanyuk.	475	568
Composition of Mucilages Isolated from Rye Grain at Various Stages of Ripeness —L. G. Priezzheva and V. F. Golenkov.	480	574
Separation of the Tannins and Anthocyanins of Grapes and Wine—M. A. Bokuchava, A. M. Knyazeva, G. G. Valuiko, and A. M. Filippov	484	578
Isolation and Purification of Water-Soluble Polysaccharides from Grape Must —V. I. Zinchenko, V. D. Alekseychuk, and I. G. Yazlovetskii	489	583
Changes in Composition of Grape Juice during Aseptic Preservation —K. P. Lemarin'e, E. I. Kostrova, M. A. Chepa, E. I. Saakov, and A. I. Antonik. .	492	586
Amino Acid and Amide Composition of the Tea Leaf during the Manufacture of Black Tea—V. R. Popov, M. A. Bokuchava, and S. G. Georgadze	497	592
Composition of <i>Ferula karatavica</i> Seed Oil—G. A. Stepanenko, A. U. Umarov, A. L. Markman, and L. A. Shustanova	502	599
A Method for Determining Glucoamylase Activity—I. M. Gracheva, A. I. Sadova, E. V. Kol'tsova, and T. V. Inyushkina	505	602
Modified Method for the Determination of Sulfhydryl Groups in Meat by Means of Amperometric Back Titration—A. S. Bol'shakov and N. S. Mitrofanov	509	606
Nicotine Biosynthesis in <i>Nicotiana tabacum</i> Shoots—M. Ya. Lovkova and N. I. Kliment'eva	517	615
BRIEF COMMUNICATIONS		
Fatty Acids of Rye Lipids—Yu. F. Klyushkina, Ya. I. Denisenko, and A. P. Nechaev. . .	519	617
Possible Use of Polyfluoroethylene Resins during Biochemical Oxidation of Sorbitol to Sorbose—V. N. Kestel'man, E. G. Naumov, and F. B. Novikova.	523	621

Preparative Extraction and Properties of N-cis-9-Heptadecenoic Acid from the Fat of <i>Candida</i> sp. Yeast—A. V. Zhukov, I. M. Davydova, and A. G. Vereshchagin . . .	527	627
Effect of Aeration on Biomass Accumulation by the Yeast <i>Candida utilis</i> 295-t—T. K. Abolin', U. É. Viestur, and S. É. Selga	533	633
Multiple Isolation of Nucleic Acids and Total Protein from Yeast—S. V. Rogozhin, A. M. Mamtsis, and D. G. Val'kovskii	538	638
C ₂ Ribonuclease of <i>Aspergillus clavatus</i> —S. I. Bezborodova, V. G. Morozova, and G. I. Pusanova	543	644
Determination of Free Amino Acids in Fodder Yeast Grown on Hydrocarbons—V. A. Pomazkova, V. A. Ryabchuk, and R. M. Fedorovich	547	649
Transformation of Methylandrostenediol to Dianabol by a Culture of <i>Mycobacterium mucosum</i> 77—A. A. Akhrem and N. E. Voishvillo	551	654
Influence of the Conditions of Culturing on the Biosynthesis of Milk Curdling and Proteolytic Enzymes of <i>Bacillus mesentericus</i> Strain 11-11—B. Orosin, I. Ya. Veselov, T. A. Smirnova, and T. V. Ivanova	556	660
Ability of Cellulase Complexes of Various Fungi to Degrade Filter Paper and Potato Cell Walls—N. A. Rodionova, N. A. Tiunova, and L. I. Martinovich	561	666
Influence of Vitamin A on ATP Accumulation and Other Indices of Sperm Quality and in Increasing Issue in Astrakhan Sheep—B. B. Balakaev and A. A. Dmitrovskii	565	671
Assimilation and Metabolism of Retinal, Retinol, and Retinyl Acetate upon Intramuscular Injection—A. A. Dmitrovskii and S. Kh. Tapaltsyan	572	679
Effect of Glycerin and Ethylene Glycol on Trypsin and Chymotrypsin—E. V. Sokolova, V. V. Mosolov, and P. V. Afanas'ev	576	683
Isolation of Nitrite Reductase from <i>Achromobacter guttatus</i> -921 and a Study of Its Properties—V. I. Solov'ev and G. A. Prokosheva	579	686
Influence of some Species of the Genus <i>Fusarium</i> on Gluten and the Physical Properties of Dough—L. S. L'vova, A. P. Shul'gina, and T. I. Shatilova	584	692
Composition of Paraffin Hydrocarbons of the Cuticular Wax of Plants—N. P. Morozova and E. G. Sal'kova	589	697
Participation of CO ₂ in the Synthesis of Cell Material by <i>Candida guilliermondii</i> , Strain NP-4—I. Ya. Veselov, I. P. Uvarov, and E. R. Davidov	594	703
Influence of the Temperature of Fermentation on the Formation of Aldehydes by Brewers' Yeast <i>Saccharomyces carlsbergensis</i> Strain II—I. M. Gracheva, N. N. Gavriloza, I. P. Uvarov, and A. E. Aslanov	599	709
Essential Oil Composition in Various Rose Species and Varieties—V. A. Paseshnichenko, M. G. Borikhina, and A. P. Guseva	604	714
Simple Method of Isolating Guanyl Ribonuclease from Antibiotic Manufacturing Wastes—U. V. Beika, G. I. Kleiner, and E. Ya. Gren	610	720
BRIEF COMMUNICATIONS		
Effect of Preparations from Products of Methane Fermentation on Sprouting of Potato Tubers—É. D. Mikhlin, V. G. Popov, and S. A. Gusev	616	726
Effect of the Salts of the Higher Carboxylic Acids on the Growth of Microorganisms in Medium Containing Fuel Oil—Ya. M. Paushkin, I. L. Rabotnova, T. P. Vishnyakova, N. N. Grechushkina, I. D. Vlasova, E. S. Mil'ko, I. F. Krylov, and Z. A. Avakyan	618	728
An Investigation of the Amino Acids in Apple Must and Wine—G. I. Macharashvili and G. L. Shaposhnikov	622	732
REVIEW		
L. V. Metlitskii. The Biochemistry of Fruits and Vegetables—Reviewed by V. I. Rogachev	625	735
